Market Maker

OBJECTIVE

1. **Induce Retail to Take a Position** (consolidation break out, wide range swings)
2. **Create Fear and Panic to make you think irrationally** (market spikes, fast moves)
3. **Hit Stop Losses to Pocket Your Money** (stop hunts, market reversals)

HOW TO TRADE LIKE THE MM

1. **Understand How to Read the Moves** (where is the trapped volume)
2. **Anticipate how the MM will Present** (read last 3-5 days for directional bias)
3. **Trade Inline with the MM** (W and M pattern reversals near weekly high and lows, mid-week reversals)

TYPICAL WEEK

Beginning of the Week Sun/Mon

Aggressive move to trap the traders then pull the market away from those traders - false move

Beginning of a Session

Stop hunt to trigger breakout traders - either stop them out or trap them without taking profit - game over both sides

Mid-week Reversal Wed/Thur/Fri

Wicks change sides, stops hunts to the weekly low or high, M or W formation

End of the Week Friday

Spike the low, spike the high, pullback then end the week in consolidation - trap the traders into the weekend

Market Maker EMAs
