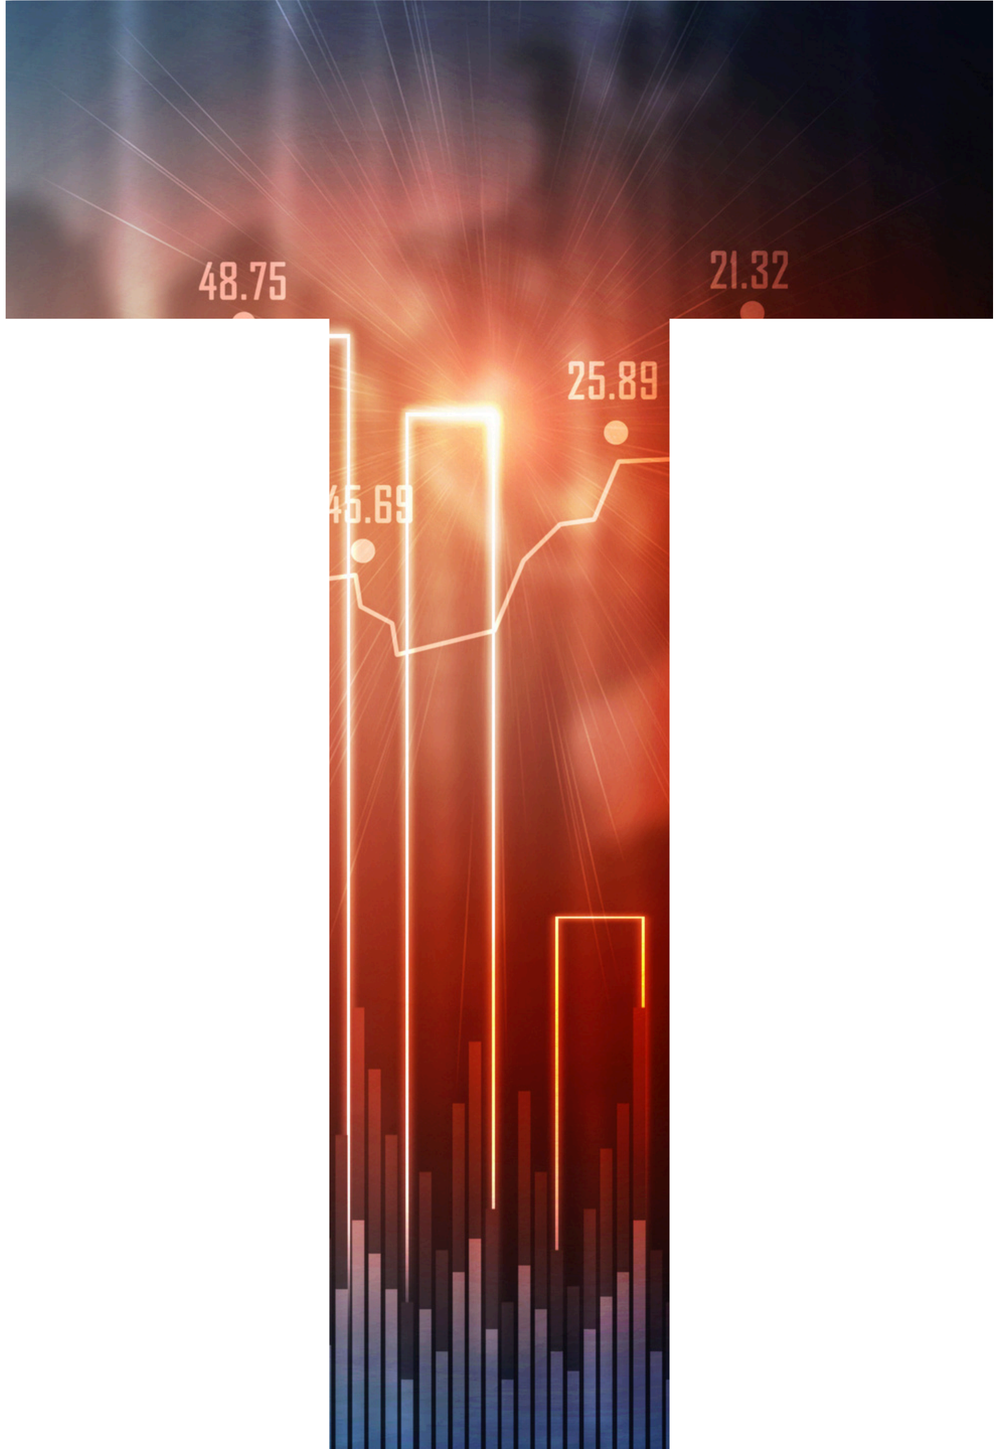
THE TIMING



Market Makers trade 3 major sessions according to CME Trading times. All other times you see online are wrong!

- Session Timezones
- Beginning / End of Week
- Beginning / End of Day
- Beginning / End of Session

THE TIMING

WEEK BEGINS SUNDAY 5PM NEW YORK
WEEK ENDS FRIDAY 5PM NEW YORK

NOTE: As crypto market is tradable 24/7 and more than 70% of all trading volume is said to be made by algorithmic bots, it's possible for the formation to run into normal market closing times.

We consider crypto price action outside of these times to be unpredictable and rarely worth trading.
